ULTIMATE STUNTMAN

IMPORTANT PRECAUTIONS

Do not connect the console to a TV or monitor before the game is turned on. This may damage your TV.

DO NOT touch the connectors or get wet or dirty.

DO NOT turn the game with your hands, unless you are sure.

DO NOT use the game or places from any way but or very old.

DO NOT use the game for anything but to play.

DO NOT use a BATTERY OR REAR PROJECTION TV Projection. This can be permanently damaged by displaying ordinary

characters, e.g., a large picture.

Connect the console to a TV or monitor before the game is turned on. It is not a defect of the game, any ordinary image can cause such

damage. Please contact your TV manufacturer for more information.

other than buttons.

ULTIMATE STUNTMAN-THE HUMAN FLY

Once the forehead is damaged and the Ultimate Stuntman has broken through the base perimeter, he'll find that the only way in is through the op. Never fear, all Ultimate Stuntman has to do is a brilliant human fly act!
Doctor Evil is still playing dirty though - he's got a bunch of his hoods waiting in the building who will stop at nothing to prevent Ultimate Stuntman from penetrating the base. The only way to deal with the hoods is to wipe them out with his gun...

HUMAN FLY CONTROLS

UP/DOWN/LEFT/RIGHT
A or B BUTTONS
START

Move Ultimate Stuntman
Move target and fire
Pause/Unpause

MICROLIGHT PURSUIT

Doctor Evil has fed, taking to the skies in one of his heavily armed microlight planes. Ultimate Stuntman™ must of course follow the Doctor (who is an expert pilot) to his top secret destination. In a microlight... Fly over the rocky terrain, being careful not to crash the craft into rocks and cliffs. You'll have to squeeze through gaps in solid rock walls, so you'll have to trim your flight path to exactly the right altitude... you're the only one that can do it!

MICROLIGHT PURSUIT CONTROLS

LEFT/RIGHT: move left/right
UP: Climb
DOWN: Dive
START A BUTTON: pause
B BUTTON: Keep slow
Fire weapons

GROUND PURSUIT

Ultimate Stuntman will have to chase Doctor Evil along freeways and backroads, through rivers and rapids, down covered beaches and many more. Some of Doctor Evil's hoods are waiting to ambush Ultimate, and there's more than a small army out there. Watch out for rockfalls, missiles, bullets and bombs and other surprises. Luckily, Ultimate Stuntman has weapons hidden along the route, so pick them up to improve your chances of success.

GROUND PURSUIT CONTROLS

UP: Accelerate
LEFT/RIGHT: Move Left/Right
DOWN: Brake then reverse
A BUTTON: Turbo (if available)
B BUTTON: Fire weapons
START: Pause/Unpause

The Display - how to use it.

The search for Doctor Evil will take Ultimate Stuntman™ through lots of different action scenarios Ultimate will probably travel through each type of action scenario more than once and probably in different vehicles.
On each scene, the screen will display (on the top left) an energy bar with five squares, if all these are lost, Ultimate Stuntman will loose a life. Also, if you take too long on these scenes the trail will go cold and Ultimate Stuntman™ will forfeit a life.
Turbos and keys to collect are displayed on the top right and are explained with each section...

STREET COMBAT

It seems that Doctor Evil gets a kick from pitting his wits against the Ultimate Stuntman(TM), now he's around the keys that unlock the protective forcefield for his hidden base all around the landscape, and watches on closed circuit TV as Ultimate Stuntman tries to find them. Shown on the top right of the screen is how many keys Ultimate has left to collect, when they have all been found, a sign will flash to let you know that it's time to move on. Of course, Doctor Evil hasn't left the place unguarded, there's robot hoods all over the place, just waiting to end Ultimate's career!

STREET COMBAT CONTROL

LEFT/RIGHT: Move Left/Right
B BUTTON: Fire Weapons
A BUTTON: Jump up
UP+A: Shoot up
DOWN+A: Jump off ledge
DOWN+B: Shoot down

BOMB DISPOSAL

If Ultimate Stuntman™ makes it into the base, it is just possible that Doctor Evil will have escaped, leaving a bomb behind to destroy any evidence and maybe Ultimate Stuntman too!
To diffuse a bomb, all the microchips must be removed from the triggering device before the timer sets off the bomb. It's lucky that Ultimate Stuntman always carries a soldering iron! Some microchips will need time to be de-soldered more than once to fully remove them, and Doctor Evil has laid a few body traps along the way like all good bomb makers do. Follow these rules to diffuse the bombs. 1. You can only de-solder a chip that is next to one you have just de-soldered. 2. You can't de-solder the same chip twice in succession - you'll risk it overheating and setting the bomb off.

BOMB DISPOSAL CONTROLS

UP/DOWN/LEFT/RIGHT: Move pointer
ALL OTHER BUTTONS: Reset the puzzle

CAMERICA LIMITED INC. LIMITED WARRANTY

CamERICA Limited Inc., ("CAMERICA") warrants to the original purchaser only of the CamERICA game cartridge that the medium on which this computer program is recorded is free from defects in materials and workmanship for a period of ninety(90) days from the date of purchase.

This warranty is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect in the CamERICA game cartridge has arisen through ABUSE, UNREASONABLE USE, MISFEASANCE OR NEGLIGENCE.

CamERICA agrees for a period of ninety (90) days to either replace or repair, at CamERICA's option, free of charge, the CamERICA game cartridge found not to meet CamERICA's express warranty.

CamERICA agrees with great deal of satisfaction to provide a replacement of the game cartridge found not to meet CamERICA's express warranty and returned to CamERICA by the original purchaser within ninety (90) days of purchase, is the full extent of CamERICA's obligations and is the purchaser's exclusive remedy.

This warranty is in lieu of all other warranties and conditions, all warranties and conditions express or implied, including but not limited to, implied warranties and conditions of merchantability and fitness for a particular purpose and those arising by statute or otherwise in law or from a course of dealing or uses of trade or of expressly disclaimed.

In no event will CamERICA be liable for any special incidental or consequential damages resulting from the use, or non-use, of this CamERICA game cartridge.

The express warranty above gives you specific rights and you may also have other rights which vary from jurisdiction to jurisdiction. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitation on how long an implied warranty or conditions last, so the above limitation or exclusion may not apply to you. Any exclusion or limitation shall not be applicable to the extent it is prohibited by the law in any jurisdiction, and such provision shall be severed from the rest of these terms.

This device complies with Part 15 of the FCC Rules. Operations subject to the following two conditions.

- (1) This device may not cause harmful interference and
- (2) This device must accept any interference received including interference may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does not cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which a receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus as set out in the radio interference regulations of the Canadian Government of Communications.
